

# **AFTER SCHOOL ACTIVITIES**

## **SESSION 3**

### **SOCCER**

Practice the world's greatest game! You will participate in individual and team exercises to improve your passing, shooting and ball control. Improve your footwork and learn to deke players on the opposite team. Each class will end with a friendly game!

### **FLOOR HOCKEY**

Practice our national sport in your school gym! Improve your stick handling and perfect your passes and shots on net by participating in individual and team exercises. Each class will end with a friendly game!

### **COOKING**

Unleash your inner chef in this fun, hands-on culinary experience. Together with our long time in house cooking teacher Mrs. Alba, students will learn basic cooking skills and enjoy the delicious dishes they create with their friends and family. Recipe book provided at the end of the session.

### **VIDEO GAME DESIGN**

Students will develop a range of coding and problem-solving skills as they create fun video games. Game designers will think creatively, reason systematically, and work collaboratively to create various video games. Each Game Design unit includes a themed mini-model built with LEGO® Bricks that will be the main character of all of the games. Each game progressively teaches more advanced capabilities within the video game design software. Students will be proud and excited to actually play their very own completed video games.

### **MODEL DESIGN BY BRICKS 4 KIDZ**

What is better than a hands-on class where students can build motorized structures out of LEGO® Bricks, using one-of-a-kind model plans designed by Bricks 4 Kidz®! Instructional content is multi-disciplinary and designed by educators to increase the student's general knowledge and introduce S.T.E.M. (science, technology, engineering and math) concepts related to the day's model. Lessons are designed around students' interests, with themes such as animals, space, transportation and sports.

## **ROCK'N REPTILES BY REPTIZOO**

Unravel the mysteries about reptiles and learn more about some of the animals we share our planet with. This exciting and interactive program takes a hands on approach. Every week we will meet new exotic reptiles. The students will play games, take fun quizzes and work on team building activities. There are a variety of prizes given out to all students throughout, and each child will take a photo with one of their favourite Reptizoo animals. On the last day we hand out their photos and a piece of reptile skin as a souvenir. This program features different animals than our Animal Kingdom program.

## **BASKETBALL**

Practice a fast paced and strategy oriented sport! Improve your dribbling, shooting and your positioning on the court thanks to individual and team exercises. Each class will end with a friendly game!

## **RED CROSS BABYSITTING CERTIFICATION**

For many young teens, babysitting a younger sibling, neighbour or relative is their first real job. The Canadian Red Cross babysitter's course is designed for both boys and girls in grades 5 and 6. The Canada wide program teaches participants child caring strategies, emergency prevention and basic first aid skills. The emphasis is on prevention through basic knowledge of child development.

## **FLOOR HOCKEY**

Practice our national sport in your school gym! Improve your stick handling and perfect your passes and shots on net by participating in individual and team exercises. Each class will end with a friendly game!

## **FUSION SPORTS**

Participate in different popular sports throughout the session: soccer, basketball, floor hockey, dodgeball and different coop games! You will also be initiated to original sports such as ultimate frisbee and kinball! Each week will be dedicated to the discovery of a new sport through friendly games!

## **COMIC BOOK CREATION**

Enter into the world of comic books and discover techniques to create your own characters! Learn to draw special effects, sound effects, speech bubbles, backgrounds and how to work with perspectives. Become an apprentice and create your very own comic book!
